

ADDENDA

THIS ADDENDUM DATED FEBRUARY 22, 2010 SETS OUT THE CHANGES TO BE MADE IN THE STATEMENT OF ADDITIONAL INFORMATION, SCHEME INFORMATION DOCUMENTS / KEY INFORMATION MEMORANDA OF ALL THE SCHEMES OF JM FINANCIAL MUTUAL FUND

I. Default redemption/switch-out

In case, an Investor fails to mention the complete name of the scheme upto plan/ sub- plan level while making request for redemption/ switch-out, the AMC reserves the right to redeem/ switch-out all/specified desired units/value provided the investor is having holdings only in one scheme/plan/option and the folio number is clearly mentioned or if he maintains one folio. Otherwise, such incompletely filled requests would be summarily rejected without processing.

II. Minimum amount for purchase/redemption/switches;

In case, the investor has not mentioned the plans/ sub-plans etc or has incompletely/illegibly mentioned the plans/sub-plans etc. in the purchase/redemption/switch request (specifically where he is having holdings in various plans/sub-plans etc.) of the particular scheme, the AMC will summarily reject such requests if the investor has not furnished any clarification in writing, duly signed, on the date of transaction itself, during normal office hours.

III. Post Dated Cheques:

In the event of any merger/acquisition/closure of Banks, the investor will be required to replace the remaining post dated cheques with the cheques drawn on any other existing Bank.

IV. SIP/STP/SWP Facility

1. In case of a Regular SIP, the AMC will retain the initial investment made towards the 1st SIP installment as normal investment if the same meets the minimum investment criteria of the scheme concerned and will not refund even if it does not fulfill any of the criteria stipulated for a valid SIP. However, the investor may redeem/switch-out if he so wishes, by submitting redemption/switch-out requests as per normal procedure.

2. In case, any of SIP/STP/SWP due dates fall on a Non-Business day, the NAV of the next Business day will be applicable.

V. Conversion of Regular SIP To Special SIP

The AMC at its discretion can treat the investment made under Regular SIP as having been made under Special SIP if the 1st payment instrument bounces back as unpaid, whereas payment for 2nd and/or subsequent installment/s is/are received in the meantime and fulfills other conditions of the valid SIP. However, in such event, all the provisions of Special SIP will be applicable including load structure as applicable on the date of 1st installment through Special SIP (i.e. 2nd installment through Regular SIP). Accordingly the AMC will re-register the period of subscription through Special SIP suitably.

VI. Micro Systematic Investment Plans (Micro Sips)

The minimum balance criteria will not be applicable for Micro SIP investors.

VII. Valid SIP application

In the event of non-receipt of funds for the first investment/1st SIP installment itself, due to dishonour of the cheque, the SIP will automatically be treated as discontinued ab-initio and amount for subsequent installment will be refunded, if it is not possible to convert the Regular SIP to Special SIP, as per the provisions of the Special SIP.

VIII Clarification regarding redemption/switch out (In case of JM Tax Gain Fund, this option will be available only after completion of lock-in period)

No request for redemption/switch out will be effected unless the scheme from which redemption/switch out is sought to be effected, has received the funds.

IX. Mr. G. M. Ramamurthy has been appointed as an Independent Director of the AMC with effect from February 16, 2010.

Consequently, the following clause under the Para "Board Of Directors of AMC" is added in the Statement of Additional Information of JM Financial Mutual Fund:

A Monthly Fund Update from JM Financial Mutual Fund

Details as on February 26, 2010

Market Update - Equity

THE UNION BUDGET 2010-11

The Union Budget 2010-11 is a growth-oriented budget which is expected to not only boost the consumption demand but also put special emphasis on infrastructure schemes. This is expected to help continue the growth momentum. The finance minister has also managed to take care of the social sector spending and agriculture. One of the major positive outcomes of the budget has been the government's FY11 net borrowing of Rs3.45tn with a clear roadmap to keep the budget deficit under check i.e 5.5% for FY11E – 4.1% for FY13. The budgeted divestment proceeds to the tune of Rs400bn will be an important factor to keep the deficit and hence the interest rates in check. The unwinding of fiscal stimulus was also essential to keep deteriorating public finances within limits. On the other hand, the hike in MAT and inclusion of new sectors in the service tax net would be negative for corporates in the near term. On the whole, the Budget is positive for a) Automobiles on account of higher disposable incomes i. e. positive for volumes; b) Construction and Engineering due to higher allocation for flagship schemes; c) Agriculture & Education due to increased allocation. The budget, however, is not so favorable for real estate, retail and airlines due to implementation of service tax; infra developers due to the MAT rate hike.

India GDP for Q3 FY10 was also announced which stood at 6.0% against expectations of 6.8%. This was mainly on account of negative 2.8% growth in Agriculture and negative 2.2% in community, social and personal services which led to a growth of 6.3% in services against expectations of 8.5%.

STOCK MARKETS OUTLOOK

Sensex and Nifty went up by 73 points (0.4%) and 40 points (0.8%) to close at 16,430 and 4,922 respectively. FII's invested US\$ 74 mn in cash during the last week of the month. However for the month the total investment stood at US\$ -600 mn. For Calendar Year 10 total investment is US\$ -2,166 mn. Domestic Institutional Investors invested US\$ 471 mn during the month and Calendar Year 10 the total investment stood at US\$ 3,116 mn.

The equity markets have given thumbs up to the Union Budget, however the markets are more likely to be range bound and driven more by the international markets in the short term once the initial euphoria subsides. The markets will now be looking forward to the advance tax numbers and next big event, which is the credit policy in April. It is expected that RBI will continue with its monetary stimulus unwinding to reign in the inflation expectations. However, we strongly believe that the economy continues to be in a higher growth trajectory and thereby buoyant demand outlook continues. We therefore continue to maintain our positive view on the markets over the next 12 -18 months period.

Market Update - Derivatives

The markets traded in a narrow range of around 7% in February closing marginally higher than the previous month closing, waiting for cues from the Union Budget. The cost-of-carry for the month remained low due to lower participation in the market. The fund got few unwinding opportunities of arbitrage positions during the month. The rollovers from February to March series were slightly lower than the past few months, since the long rollers were reluctant to carry forward their positions due to the Budget uncertainty. As a result, rollover cost also dipped due to excess of short rollovers in the system resulting in lower returns for the fund. It is expected that volatility will pick up, post budget, which is likely to boost returns in the Fund.

* Data Reported as on month-end, Source RBI, WSS & Bloomberg.

Government bond yields nudged higher on strong economic data and expectation of a huge government borrowing in FY 2011. Economic data continued to remain strong with headline inflation printing at 8.56% for the month of January 2010 and Index of industrial production for the month of December 2009 at 16.8%. The bond market also got spooked after the bearish comments on interest rates by the RBI governor on a conference call, where he mentioned that managing the government borrowing for FY 2011 will be a big challenge for RBI. He also mentioned that RBI is unlikely to give a major support to the market and the demand supply will determine the movement of yields.

In the Union budget, the FM announced a gross borrowing for FY 2011 at INR 4.57 trillion and a fiscal deficit of 5.5% of the GDP which was in line with the market expectations. Net borrowing for FY 2011 is pegged at INR 3.45 trillion. Fiscal deficit for FY 2010 was revised higher to 6.9% as against the Budget estimates of 6.8%. After the announcement of the union budget the Govt announced hike in domestic fuel prices.

The 10 year benchmark yield ended at 7.95% as against 7.60% in the previous month.

Factor: Inflation
Short Term: Negative
Medium Term: Negative

Headline inflation for the month of January 2010 stood at 8.56% as compared to 7.31% in the month of December 2009. Headline inflation continued to remain at elevated levels on sharp rise in food prices. The absolute index level rose to 248.50 as compared to 246.5 in the previous month. Primary index rose to 284.70 from 280.10 during the last month. Manufactured index rose to 213 from 211.50 during the last month. The revisions for previous week inflation has been sharply higher by about 100-150 basis points. After the announcement of the union budget the Govt announced hike in domestic fuel prices. The rise in fuel prices will lead to rise in headline inflation by about 45-50 basis points. In the review of the monetary policy RBI raised concern on rising inflation expectation and raised the year end target of inflation from 6.00% to 8.50%.

Factor: Liquidity
Short Term: Positive
Medium Term: Neutral

CRR hike sucked liquidity worth Rs 36000 crores from the system. However, in spite of a CRR hike domestic liquidity situation continued to remain surplus. Easy liquidity conditions were evident as RBI received average bids of Rs. 64600 crores during the month in the daily reverse repo auction. Inter bank call rates & CBLO rates continued to remain soft on account of surplus liquidity. Going forward in the month of March 2010 domestic liquidity situation may tighten temporarily in view of advance tax outflows. Advance tax for the last quarter is estimated to be in the range of Rs 65000-70000 crores Money marker rates will firm up on tight liquidity.

Factor: Global interest rates
Short Term: Neutral
Medium Term: Negative

Global interest rates continued to remain easy during the month as the 2010 year benchmark US treasury yield moved in a narrow band on mixed economic data in the US. The Federal Reserve has assured the market of lower policy rates till the time economy is on a firm footing. US dollar continued to remain firm during the month on expectation of recovery in the US economy. The Dollar index ended higher at 80.65 as compared to 79.24 in the previous month. Reversal of interest rate cycle in developed countries will be slower than developing countries and most developed central banks are likely to keep policy rates low till the time clear signs of growth emerge.

Factor: Forex
Short Term: Neutral
Medium Term: Positive

India's Forex reserves stood at a \$ 278 billion as on 26th February. INR remained volatile during the month on volatile stock market movement. Initially the INR weakened sharply to 46.80 on steep fall in the local stock market and dollar strength. FII outflows also impacted the rupee. However, the INR rallied post budget as the FM presented a positive budget. Road map of fiscal consolidation and disinvestment target for FY 2011 boosted the local currency. INR ended at 46.04 vis-a-vis the USD against the previous close of 46.17. Going forward it is expected that INR will remain supported at these levels on strong economic data and a positive budget.

OUTLOOK

The review of monetary policy in January 2010 clearly indicates a change in the monetary policy stance of RBI. The focus of RBI has now shifted from "managing the crisis" to: managing the recovery". It is expected that RBI will take a calibrated approach while reversing the monetary stance in view of the fragile growth. In view of the economic backdrop and strong recovery, it is expected that RBI will move from an easy monetary stance to a neutral monetary stance. In the near term Government bond yields expected to trade cautiously on back of strong economic data, huge supply of bonds and expectation of further monetary tightening by the Reserve bank of India.

Gross borrowing for FY 2011 is pegged at INR 4.51 trillion and a fiscal deficit of 5.5% of the GDP. Net borrowing for FY 2011 is pegged at INR 3.45 trillion. Strong economic data and huge government borrowing in FY 2011 will keep pressure on the yields in the near term. Auction calendar for the supply in the new financial year and appetite for bonds in the auctions will determine the movement of yields in the near term. However roadmap for fiscal consolidation given in the budget and government efforts to rein in fiscal deficit is expected to act as a positive in the medium term for the bond market.

Statutory Details: Trustee : JM Financial Trustee Company Private Limited. Investment Manager : JM Financial Asset Management Private Limited. Sponsor : JM Financial Limited.

AAf rating by CRISIL indicates that the fund's Portfolio holdings provide very strong protection against losses from credit defaults. The rating of CRISIL is not an opinion on the Asset Management Company's willingness or ability to make timely payment to the investor. The rating is also not an opinion on the stability of the NAV of the scheme, which would vary with the market developments.

VALUE RESEARCH RATINGS: Value Research Fund rating are a composite measure of historical risk-adjusted returns. It is purely quantitative and there is no subjective component to the fund rating. For equity and hybrid funds, the fund Ratings for the two time periods (3 and 5 years) are combined to give a single assessment. For debt funds, the Fund Ratings are based on 18 month weekly risk-adjusted performance, relative to the other funds in category. Entry and exit loads on Funds are not considered for rating purpose. Equity or hybrid funds with less than 3-year performance and debt funds with less than 18-month performance are not rated. Each category must have a minimum of 10 funds for it to be rated. VALUE RESEARCH FUND RATING: The Value Research Fund Rating (Risk -adjusted Rating) is determined by subtracting the fund's Risk Score from its Return Score. The resulting number is then assigned according to the following distribution: HHHHH Top 10%; HHHH Next 22.5%; HHH Middle 35%; HH Next 22.5%; H Bottom 10%.

Risk Factors: Mutual fund investments are subject to market risks and there is no assurance or guarantee that the objectives of the scheme will be achieved. As with any investment in securities, the Net Asset Value (NAV) of the units issued under the Scheme can go up or down depending on the factors and forces affecting the capital markets. Past performance of the Sponsor / AMC / Schemes of JM Financial Mutual Fund does not indicate the future performance of the schemes of JM Financial Mutual Fund. The sponsor is not responsible or liable for any loss resulting from the operation of the fund beyond the initial contribution made by them of an aggregate amount of Rupees Two lacs towards setting up of the Mutual Fund, which has been invested in JM Equity Fund. The names of the schemes do not in any manner indicate either the quality of the schemes or their future prospects or returns. Investors in the Schemes are not being offered any guaranteed / indicative returns. Investors may please note that after payment of the dividend, the per unit NAV will fall to the extent of the dividend paid out (including the applicable distribution tax payable to Government). Past performance is no guarantee of future results. This newsletter is neither a prospectus nor an invitation to subscribe to units of JM Financial Mutual Fund. Application should be made on the application form and on the basis of the respective scheme Scheme Information Documents. Distribution taxes have been excluded while calculating the returns. The above information is not necessarily indicative of future results and may not necessarily provide a basis of comparison with other investments.
