REPORT OF THE BOARD OF TRUSTEES

Dear Unitholder,

The Board of Directors of JM Financial Trustee Company Private Limited (the "Trustee Company"), is pleased to present the Annual Report of JM Financial Mutual Fund for the year ended March 31, 2026.

FUTURE OUTLOOK

The RBI announced Repo Rate cuts of 100 bps during the FY 2025-26 (making a total of 125 bps repo rate cuts) while shifting its stance from Accommodative to Neutral. For most part of the year, the RBI appeared to be comfortable with the inflation trajectory and focussed on growth and orderly management of INR volatility.

The RBI intervened through both, Variable Rate Repo (the "VRR") and Variable Rate Reverse Repo (the "VRRR") to combat intermittent excessive deficit/surplus liquidity thereby anchoring the weighted average call rate (the "WACR") closer to the policy rate. Liquidity conditions during the year remained largely in surplus mode but intermittently dipped into deficit territory despite RBI's support to enhance the systemic liquidity through Open Market Operations (the "OMOs"). Growth remained broadly resilient during the year.

The Government continued to focus on fiscal consolidation and kept the budget growth with fiscal deficit as a percentage of GDP lowered to 4.3% in FY 2026-27 from 4.4% in FY 2025-26. The Government pegged the gross market borrowing at Rs. 17.2 Tn for FY 2026-27 which was higher than market expectations and Net borrowings for FY 2026-27 is estimated at Rs. 11.7 Tn which is broadly in line with market expectations.

The sovereign yield curve continued to remain steep for most part of the year with the shorter end outperforming the longer end. However, bond markets have seen a sharp reversal in yield movements due to the middle-east war between US-Israel and Iran beginning January 2026. Yields hardened due to heightened concerns relating to oil prices, its impact on inflation, currency movements, FPI outflows and geopolitical uncertainties. The 10Y G-Sec yield which was at 6.58% on March 28, 2025, closed at an annual high of 7.03% on March 30, 2026.

With the continuance of global geopolitical turmoil and its domestic economic fallout, the near-term view for the FY 2026-27 appears to be one where markets may show continued volatility. Domestic headwinds emanating from food and fuel prices may push inflation up while a slowdown in global demand may put pressure on growth. In such a scenario, domestic bond markets may see continual upward pressure on yields even as RBI pausing rates for an extended period with the possibility of rate hikes emerging towards the end of FY 2026-27. Liquidity may remain relatively comfortable.

Both the Sensex Total Return Index (the "TRI") and Nifty TRI indices were down by 6% and 4%, respectively during the financial year ended March 31, 2026. Broader indice(s) like BSE 100 was down by 3.6% and BSE 500 TRI was down by 3.1% over the previous year. Nifty Midcap 150 TRI was up by 2.3% whereas Nifty Small cap 250 TRI was down by 4.9%.

Comparison of indices as on March 31, 2025 and March 31, 2026 was as follows.

The Scheme's return will be driven by the overnight rates prevalent in the market, which in turn depends on the benchmark interest rates and systemic liquidity. The Marginal under performance is mainly on account of expenses incurred by the Scheme.

Concept of Macaulay Duration: The Macaulay duration (named after Frederick Macaulay, an economist who developed the concept in 1938) is a measure of a bond's sensitivity to interest rate changes. Duration tells investors the length of time, in years, that it will take a bond's cash flows to repay the investor the price he or she has paid for the bond.

Fixed income securities with higher duration have higher interest rate sensitivity i.e. the changes in price of higher duration bonds are higher as compared to lower duration ones.

A zero coupon bond is one which does not pay any interest and all payments are received at maturity. For a zero coupon bond, the duration is same as residual maturity.

Formula: There is more than one way to calculate duration, but the Macaulay duration is the most common. The formula is:

$$\text{Macaulay duration} = \frac{\sum_{t=1}^n \frac{tC}{(1+y)^t} + \frac{nM}{(1+y)^n}}{P}$$

where: t = period in which the coupon is received, C = periodic (usually semiannual) coupon payment, y = the periodic yield to maturity or required yield, n = number periods, M = maturity value (in ₹), P = market price of bond.

Notes: Duration is quoted in "years." If a bond has a semi-annual period, we convert duration to years before quoting it (a duration of 8 semiannual periods is 4 years). Duration is a measure of interest-rate risk. Or, stated differently, duration is a measure of how sensitive the price of a fixed-income instrument is to interest-rate changes. When we say, "The duration of the bond is 4 years," we mean: "If the interest rate on the bond goes up by 1%, the bond's price will decline by 4%."

POTENTIAL RISK CLASS (PRC) MATRIX

In terms of the Paragraph 17.5 of the SEBI master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, all debt schemes are required to be classified in terms of a Potential Risk Class (PRC) matrix consisting of parameters based on maximum interest rate risk (measured by Macaulay Duration# (MD) of a scheme) and maximum credit risk (measured by Credit Risk Value (CRV) of a scheme) in the following manner.

Max Credit Risk of a scheme →	Class A (CRV >=12)	Class B (CRV >=10)	Class C (CRV <10)
Max Interest Rate			
Risk of a scheme ↓			
Class I (MD <=1 year)	Relatively Low Interest Rate Risk and Relatively Low Credit Risk (A-I)	Relatively Low interest rate risk and moderate Credit Risk (B-I)	Relatively Low interest rate risk and Relatively High Credit Risk (C-I)
Class II (MD <=3 years)	Moderate interest rate risk and Relatively Low Credit Risk (A-II)	Moderate interest rate risk and moderate Credit Risk (B-II)	Moderate interest rate risk and Relatively High Credit Risk (C-II)
Class III: Any Macaulay Duration#	Relatively High interest rate risk and Relatively Low Credit Risk (A-III)	Relatively High interest rate risk and moderate Credit Risk (B-III)	Relatively High interest rate risk and Relatively High Credit Risk (C-III)

SWING PRICING FRAMEWORK

Swing pricing refers to a process for adjusting a scheme's Net Asset Value ("NAV") to effectively pass on transaction costs stemming from significant net capital activity (i.e., flows into or out of the fund) to the investors associated with that activity during the life of a fund, excluding ramp-up period or termination. Swing pricing is an anti-dilution adjustment that seeks to protect investors in a scheme from performance dilution as a result of significant outflows from the scheme, particularly during market dislocation.

Accordingly, mandatory full swing during market dislocation times shall apply for the applicable schemes as per the framework and as disclosed in the respective scheme related documents.

In terms of paragraph 4.10 of the SEBI master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, disclosures pertaining to NAV adjusted for swing factor shall be made available by the AMC in the prescribed format in the Scheme Information Document and in scheme wise Annual Reports and Abridged summary thereof and on the website in case swing pricing framework is made applicable for a mutual fund scheme.

During the period of the report, there were no circumstances which warranted application of swing pricing for any of schemes of the Fund.

The Management of JM Financial Trustee Company Private Limited (hereinafter referred to as "the Trustee Company"), being the Schemes' trustees, and JM Financial Asset Management Limited (hereinafter referred to as "the AMC"), being the Schemes' asset manager, are responsible for the other information. The other information comprises the information included in the Trustees' Report, but does not include the Ind AS Financial Statements statements and our auditor's report thereon. The Trustees' report and Abridge Financials is expected to be made available to us after the date of this auditor's report.

5. Our opinion on the Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

6. In connection with our audit of the Ind AS Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

7. When we read the Trustees' Report and Abridged financials, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Ind AS Financial Statements

8. The Management of the Trustee Company and the AMC are responsible for the preparation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance, cash flows and changes in the net assets attributable to unit holders of the Schemes in accordance with the accounting principles generally accepted in India, including accounting policies and standards as specified in the Ninth Schedule of the SEBI Regulations. This responsibility also includes the maintenance of adequate accounting records in accordance with the SEBI Regulations for safeguarding the assets of the Schemes and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Audit of Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS Financial Statements.

12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Schemes' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS Financial Statements, including the disclosures, and whether the Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all
