NAME OF THE SCHEME: JM FIXED MATURITY FUND - SERIES XXVIII – PLAN B

1. INVESTMENT OBJECTIVE

A close ended income scheme, seeking to generate regular returns and capital appreciation through investments in fixed income securities maturing on or before the date of the maturity of the Scheme. There can be no assurance that the investment objective of the Scheme will be realized.

2. INVESTMENT STRATEGY

The schemes objective would be achieved by investing in a portfolio of fixed-income / debt securities that are generally in line with the maturity of the scheme. This will be based on the principle of ensuring Asset Liability match. The fund manager will endeavor to deploy the investments in the scheme (investments) in such a way so as to coincide with the tenor of the scheme for which unit capital is received from the investors.

The investment policies will be in conformity with the provisions of various constitutional documents viz. MOA / AOA of the AMC / Trustee, IMA and the Trust Deed. On occasions, if deemed appropriate, the Plan / Scheme will invest in securities sold directly by the issuer, or acquired in a negotiated transaction. The moneys collected under this Plan / Scheme shall be invested only in transferable securities in the money market or in the capital / debt market or in privately placed debentures or in Government securities.

As per SEBI Regulations, the Plan/ Scheme shall not make any investments in any unlisted securities of associate/ group companies of the Sponsors. The Plan / Scheme will also not make investment in privately placed securities issued by associate / group companies of the Sponsor. The Plan / Scheme may invest not more than 25% of the net assets in listed securities of Group companies.

JM Fixed Maturity Fund – Series XXVIII - Plan B will seek to invest in debt and money market instruments. The Scheme aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC will be guided by the ratings of rating agencies such as CRISIL, CARE, ICRA and India Rating or any other rating agencies that may be registered with SEBI from time to time. In case a debt instrument is not rated, necessary clearance of the Committee/ Boards as per requirements of Regulations / Guidelines / Circulars will be obtained for such an investment.

(i) Scientific approach to investment

The Mutual Fund adopts a scientific approach to investments. Securities are selected for various schemes by the fund managers based on a continuous study of trends in industries and companies, including management capabilities, global competitiveness, earning power, growth / payout features and other relevant investment criteria, which would, inter-alia include evaluation of the outlook of the economy, exposure to various industries and geographical regions, evaluation of the intrinsic worth of specific opportunities such as primary market transactions, private placements etc.

(ii) Liquidity Management

The Fund Manager may invest in short term deposits of scheduled commercial banks pending deployment of funds. The Scheme may also keep a portion in cash or near cash in meeting the expenses of the Scheme.

(iii) Mode of Investment

The securities in which the investment manager may invest would be through primary as well as secondary market, private placement etc. These securities may be those listed on various stock exchanges as well as unlisted securities.

(iv) Procedure for taking investment decisions

The investment policy of the AMC has been determined by the Investment Advisory Committee ("IAC") and has been ratified by the Boards of the AMC and Trustee Company. At the strategic level, the broad investment philosophy of the AMC and the authorised exposure limits are spelt out in the Investment Policy of the AMC. During trading hours, the Fund Managers have the discretion to take investment decisions for the Scheme within the limits defined in the Investment Policy, these decisions and the reasons thereof are communicated to the CEO for post facto approval.

The designated Fund Manager of the Scheme will be responsible for taking day-to-day investment decisions and will inter-alia be responsible for asset allocation, security selection and timing of investment decisions.

IMPORTANT

It must be clearly understood that the above referred portfolio strategies are not absolute, and that they can vary substantially depending upon Fund Managers' perception as to whether the stock/ debt market is in an overheated state or has fallen well below a level they consider appropriate taking into account the factors prevailing at that time, the intent being to protect the Unitholders interest, especially the NAV of the Fund.

Fund Managers may, from time to time, at its' absolute discretion review and modify the strategy, provided such modification is in accordance with SEBI Regulations.

3. ASSET ALLOCATION PATTERN

JM Fixed Maturity Fund - Series XXVIII – B, offers tenure of 1135 days from the date of allotment (including the date of allotment).

Under normal circumstances, the asset allocation for the Plans having maturity of 1135 days under the Scheme, will be as follows:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Maximum	Minimum	
Government securities, Debt Instruments,	100	70	Low to High
Treasury Bills, TREPES and Money Market securities	30	0	Low to High

In terms of SEBI circular No. 12/147132/08 dated December 11, 2008, plan B shall invest only in such securities which mature on or before the date of the maturity of concerned plan of the scheme.

Disclosure pursuant to SEBI circular dated August 1, 2011:

a) Credit Evaluation Policy for investment in debt securities:

The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks so the Investment process comprises of qualitative as well as quantitative measures.

Qualitative factors like management track record, group companies, resource-raising ability, extent of availability of banking lines, internal control systems, etc are evaluated in addition to the business model and industry within which the issuer operates as regards industry/ model-specific risks, working capital requirements, cash generation, seasonality, regulatory environment, competition, bargaining power, etc.

Quantitative factors like debt to equity ratio, Profit and loss statement analysis, balance sheet analysis.

Macroeconomic call is taken on interest rate direction by analysis of various influencing factors like Inflation, Money supply, Private sector borrowing, Government borrowing, Currency market movement, Central Bank policy, Domestic fiscal and monetary policy, Global interest rate scenario and Market sentiment. Interest rate call is supplemented by technical analysis of market and short term influencing factors like trader position, auction/issuance of securities, release of economic numbers, offshore market position, etc. Interest Rate call and anticipation of yield curve movement forms the basis of portfolio positioning in duration and spread terms.

Credit research is done on a regular basis for corporate having high investment grade rating. Credit research includes internal analysis of rating rationale, and financial statements (annual reports and quarterly earnings statements) of the issuer, for the last 1-3 years evaluating amongst other metrics, relevant ratios of profitability, capital adequacy, gearing, turnover and other inputs from external agencies. On an ongoing basis, credit profile of the issuer, possible credit risks reflected in change in outlook of rating agencies, external developments affecting the issuer etc are tracked. Internal credit call is a pre-requisite for all investments since the investment universe is primarily high-grade credit instruments. Credit research is also used to minimize credit migration risk and for generating relative value trade ideas. Stable to higher rating on maturity vis-à-vis issuance is the guiding factor for investment decisions from credit point of view

b) The Scheme shall not invest in debt securities issued by corporates operating in Gems/Jewellery and Airline Sectors.

The type of instruments in which the scheme proposes to invest viz. NCDs, CPs, CDs, Treasury bills, etc. is detailed in under the heading "Where Will The Scheme Invest" in the SID.

Note :

In accordance with CIR/IMD/DF/24/2012 dated November 19, 2012, SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2016/35 dated February 15, 2016, SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2016/68 dated August 10, 2016, & SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2017/14 dated February 22, 2017, the total exposure of debt schemes of Mutual Fund in a particular sector (excluding investments in Bank CDs, CBLO, G-Secs, T-Bills, short terms deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) will not exceed 25% of the net assets of the scheme.

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/exposure in HFCs shall not exceed 25% of the net assets of the scheme.

- At the time of portfolio building, post NFO and towards maturity, the Scheme may have higher allocation to cash and cash equivalents such as CBLO, Repo and T-Bills.

- There will not be any variation between intended asset allocation and final asset allocation, other than exception mentioned at 1, 4 and 5.

4. RISK PROFILE OF THE SCHEME

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme. The various factors which impact the value of the Scheme's investments include, but are not limited to, fluctuations in the bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes etc.
- The name of the scheme does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of one Lac made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

Scheme Specific Risk Factors

Given below are some of the common risks associated with investments in the fixed income and money markets instruments

- The Scheme may not be able to invest in the suitable securities falling within its investment parameters leading the Scheme to hold short term deposits of scheduled commercial banks till the monies are deployed as per the investment objective of the Scheme.
- As the Scheme propose to invest and hold the securities till maturity, any default/delay by the investee company in honoring the securities on redemption may lead to delay and/or erosion in the maturity value to the unitholders.
- Interest Rate Risk:** As with all debt securities, changes in interest rates will affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long term securities generally fluctuate more in response to interest rate changes than of shorter-term securities. Interest rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the NAV.
- Liquidity and Marketability Risk:** This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.
- Credit Risk:** Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk debentures are sold at a yield spread above those offered on treasury securities which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.
- Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the interest on interest component. The risk is that the rate at which interim cash flows can be reinvested will fall.
- Prepayment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the Plan(s) under the Scheme to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.
- Settlement Risk:** Different segments of Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Plan(s) under the Scheme are uninvested and no return is earned thereon. The inability of the Plan(s) under the Scheme to make intended securities purchases, due to settlement problems, could cause the Plan(s) under the Scheme to miss certain investment

opportunities. Similarly, the inability to sell securities held in the Plan(s) under the Scheme portfolio, due to the absence of a well developed and liquid secondary market for debt securities, may result at times in potential losses to the Plan(s) under the Scheme in the event of a subsequent decline in the value of securities held in the Plan(s) under the Scheme portfolio.

9. The liquidity and valuation of the scheme's investment due to its holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment.
10. The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.

Risks associated with close ended scheme /Listing of units:

- **Liquidity Risk pertaining to the Units:** Since, it is a close-ended scheme, the Units of the Scheme cannot be redeemed by the investors directly with the Fund until the Maturity / Final Redemption date. The Units can be purchased / sold during the trading hours like any other publicly traded stock, until the date of suspension of trading by stock exchange(s) where the Scheme will be listed. However, there may be limited liquidity on the exchange and the price of the Units in the market will depend on demand and supply at that point of time.
- **Absence of Prior active market:** Although Schemes/Plans described in this Scheme Information Document are to be listed on the Exchange, there can be no assurance that an active secondary market will develop or be maintained. Consequently, there may not be enough liquidity on the exchange and the scheme may quote below its face value / NAV.
- **Lack of Market Liquidity:** Trading in the units of FMF Series XXVIII - Plan B on the Exchange may be halted because of market conditions or for reasons that in the view of Exchange Authorities or SEBI, trading in units of JM FMF Series XXVIII - Plan B is not advisable. In addition, trading in units of JM FMF Series XXVIII - Plan B is subject to trading halts caused by extraordinary market volatility and pursuant to Exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of the Exchange necessary to maintain the listing of units of JM FMF Series XXVIII - Plan B will continue to be met or will remain unchanged.
- The units of the plan under JM Fixed Maturity Fund – Series XXVIII - Plan B may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of the Scheme's holdings. The trading prices of the said units will fluctuate in accordance with the changes in their NAV as well as market supply and demand for the units.

Risk factors associated with processing of transaction through Stock Exchange Mechanism:

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognised stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing/ settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s).

Risk associated with Investing in Derivatives:

JMF MF may use various derivative products, from time to time, in an attempt to protect the value of the portfolio and with an intention to enhance Unit holder's interest of the Scheme.

- a. As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- b. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
- c. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Risk mitigation measures:

Risk management is an integral part of the investment process. The AMC incorporates adequate safeguards for controlling risks in the portfolio construction process, which are periodically evaluated. A system has been developed that does online monitoring of various exposure limits. The system incorporates all the investment restrictions as per SEBI guidelines and internal alerts at appropriate levels for preemptive monitoring. The

system also enables identifying & measuring the risk through various risk measurement tools like various risk ratios, duration, credit score and analyzes the same so as to act in a preventive manner. In addition to minimizing the major risks for investments in debt instruments, the following steps are also taken

a) Credit Risk

- In depth credit evaluation of the money market and debt instruments (other than GSecs) proposed to be invested in.
- Issuer wise and Industry wise exposure limits

b) Interest Rate Risk: Although this risk exists in a fixed income portfolio, the closed ended nature of the Scheme mitigates the risk as portfolio construction at the time of inception leads to creation of portfolio with securities whose maturity date is in line with the maturity date of the Scheme.

c) Liquidity Risk: In a closed ended product, liquidity risk on account of underlying securities' market liquidity does not exist, as intermediate liquidity is not required. Liquidity access is done through contractual maturity of the security, which is in line with the term of the closed ended Scheme.

In terms of the Prevention of Money Laundering Act, 2002, the Rules issued there under and the guidelines / circulars issued by SEBI regarding the Anti Money Laundering ("AML Laws"), all intermediaries, including Mutual Funds, have to formulate and implement a client identification programme, verification of identity and address, financial status, occupation and such other personal information.

With effect from January 1, 2011, it is mandatory in case of all the investors (Individual/Non-Individuals) to be KYC Compliant, irrespective of the amount of investment.

KYC PROCESS

Pursuant to SEBI Circular No. MIRSD/ Cir-26/ 2011 dated December 23, 2011, SEBI (KYC Registration Agency) Regulations, 2011 and SEBI Circular No. MIRSD/SE/Cir-21/2011 4 dated October 5, 2011, in-order to implement uniform KYC norms and eliminate duplication of KYC across SEBI registered intermediaries in the securities market, KYC registration is centralized through KYC Registration Agencies (KRA) registered with SEBI. Thus each investor has to undergo KYC process only once in the securities market and the details would be shared with other intermediaries.

- New investors are requested to use the revised common KYC Application Form with specified documents as set out in the form and carry out the KYC process including In-Person Verification (IPV) with any SEBI registered intermediaries including mutual funds. The revised common KYC Application Forms are also available on our website www.jmfinancialmf.com.
- The Mutual Fund shall perform the initial KYC of its new investors and may undertake enhanced KYC measures commensurate with the risk profile of its investors. The Mutual Fund shall upload the details of the investors on the system of the KYC Registration Agency (KRA). KRA shall send a letter to the investor within 10 working days of the receipt of the initial/updated KYC documents from the Mutual Fund, confirming the details thereof.
- It is mandatory for intermediaries including mutual funds to carry out In-Person Verification (IPV) of its new investors from the Effective Date. The IPV carried out by any SEBI registered intermediary can be relied upon by the Mutual Fund. JM Financial Asset Management Limited (the "AMC") or NISM/AMFI certified distributors who are KYD compliant are authorized to undertake the IPV for Mutual Fund

investors. Further, in case of any applications received directly (i.e. without being routed through the distributors) from the investors, the Mutual Fund may rely upon the IPV (on the KYC Application Form) performed by scheduled commercial banks.

- Once the investor has done KYC as per the revised process with a SEBI registered intermediary, the investor need not undergo the same process again with another intermediary including mutual funds. However, the Mutual Fund reserves the right to carry out fresh KYC of the investor.
- The AMC reserves the right to reject application forms for transactions in units of the Mutual Fund not accompanied by letter/ acknowledgement issued by KRA. The KYC compliance status will be validated with the records of the KRA before allotting units.
- Existing KYC compliant investors of the Mutual Fund, who have completed the KYC process prior to January 01, 2012, can continue to invest as per the practice prevalent prior to the effective date. However it will not be applicable for investments in securities market. These investors, if they wish to deal with any SEBI registered intermediary other than mutual funds, will have to follow the new KYC procedure.

APPLICATION SUPPORTED BY BLOCKED AMOUNT

1. **Applications Supported by Blocked Amount or ASBA facility:** An application containing an authorization given by the Investor to block the application money in his/her specified bank account towards the subscription of Units offered during the NFO(New Fund Offer) of a Scheme. If an investor is applying through ASBA facility, the application money towards the subscription of Units shall be debited from his specified bank account only if his/her application is selected for allotment of Units.

It is an additional payment option that the investor can use in addition to the existing modes (Cheque/Demand Draft/RTGS/NEFT/Transfer etc.) for buying Units during NFO. It is available only to individuals. It is not available for subscribing to Units on an ongoing basis after the NFO. For availing this option the bank, where the investor has an account, should be a Self Certified Syndicate Bank (SCSB). The investor is required to submit a copy of the acknowledgment receipt of the ASBA Form (as submitted with SCSB) along with the NFO application form to be furnished to AMC.

2. **"Controlling Branches (CBs) of the Self Certified Syndicate Banks (SCSB):** Controlling Branches (CBs) are the branches of the SCSBs acting as coordinating branches for the Registrar and Transfer Agent of JM Financial Mutual Fund schemes, the AMC and the Stock Exchange(s) for the ASBA facility offered during the NFO period.
3. **"Designated Branches (DBs) of the SCSBs:** Designated Branches (DBs) are the branches of the SCSBs which shall collect the ASBA Application Forms duly filled by the Investors towards the subscription to the Units of the Scheme offered during the NFO. The list of these Designated Branches is available at <http://www.sebi.gov.in/pmd/scsb.pdf> and www.JM.Financialmf.com
4. **"Self Certified Syndicate Bank" or SCSB:** Self Certified Syndicate Bank/ SCSB means a bank registered with SEBI to offer the facility of applying through the ASBA process. ASBAs can be accepted only by SCSBs, whose names appear in the list of SCSBs as displayed by SEBI on its website at www.sebi.gov.in.
5. **The ASBA facility during NFO:** In respect of New Fund Offer (NFO) of Schemes/Plan(s) launched on or after October 1, 2010, an investor (being an Individual) can subscribe to the NFO through Applications Supported by Blocked Amount (ASBA) facility by applying for the Units offered in the ASBA Application Form and following the procedure as prescribed in the form. For details please refer to the Section "Applications Supported by Blocked Amount (ASBA) facility," below and also the Application Form/KIM of the Scheme.

Applications Supported by Blocked Amount (ASBA) facility: Pursuant to SEBI Circular dated SEBI/IMD/CIR No 18 /198647 /2010 March 15, 2010, an investor can subscribe to the New Fund Offer (NFO) launched on or after October 1, 2010 through ASBA facility by applying for the Units in the ASBA Application Form and following the procedure as prescribed in the form.

ASBA is an application containing an authorization given to the Bank by the Investor to block the application money in his/her specified bank account towards the subscription of Units offered during the NFO of the Scheme of JM Financial Mutual Fund. Thus, for an investor who applies through ASBA facility, the application money towards the subscription of Units shall be debited from his specified bank account only if his/her application is selected for allotment of Units. The blocked amount cannot be withdrawn and will earn interest as per account terms applicable.

It may be noted that since ASBA Facility is pursuant to an arrangement between the Investor and his/her Bank, JM Financial Mutual Fund or its Trustee/AMC/ its Employees/Directors/its RTA will not be responsible for any delay, error or omission/commission, or deficiency if any, on the part of the Investor's Bank.

Benefits of Applying through ASBA facility

- Writing cheques / demand drafts and sending them for collection etc are not required, as investor needs to submit ASBA application Form accompanying an authorization to block the account to the extent of application money towards subscription of Units. The balance money, if any, in the account can be used for other purposes by the investor ₹.
- Release/Unblocking of blocked funds after allotments done instantaneously.
- Unlike other modes of payment, ASBA facility prevents the loss of interest income on the application money towards subscription of Units as it remains in the bank account of the investor till the allotment is made.
- Refunds of money to the investors do not arise as the application money towards subscription of Units gets transferred only to the extent of amount payable for the actual allotment
- The investor deals with the known intermediary i.e.his/her own bank.
- The application form is simpler as the application form for ASBA will be different from the NFO application form.

ASBA Procedure:

- An Investor intending to subscribe to the Units of the NFO through ASBA, shall submit a duly completed ASBA Application Form to a Self Certified Syndicate Bank (SCSB), with whom he/she has a Bank Account.
- The ASBA Application Form towards the subscription of Units can be submitted through one of the following modes.

- Submit the form physically with the Designated Branches (DBs) of the SCSB ("Physical ASBA"); or
 - Submit the form electronically through the internet banking facility offered by the SCSB ("Electronic ASBA").
- An acknowledgement will be given by the SCSB in the form of the counter foil or specifying the application number for reference. (Note: Such acknowledgement does not guarantee, in any manner that the investors will be allotted the Units applied for.: Further, if the bank account specified in the ASBA Application Form does not have sufficient credit balance to meet the application money towards the subscription of Units, the Bank shall reject the ASBA Application form.)
 - On acceptance of Physical or Electronic ASBA, the SCSB shall block funds available in the bank account specified to the extent of the application money specified in the ASBA Application Form.
 - The application money towards the Subscription of Units shall be blocked in the account until (i) Allotment of Units is made or (ii) Rejection of the application.
 - SCSBs shall unblock the bank accounts (i) for Transfer of requisite money to the NFO bank account against each valid application on allotment or (ii) in case the application is rejected.
